

Narrative

Outcomes

In May 2019, the total number of street contacts made by the outreach team was 112, with 39 unduplicated contacts. One individual was contacted permanent housing. Of the 39 street contacts, 4 were new contacts, with one of them becoming a repeat contact. 37 individuals that have been previously engaged are in various stages of engagement. Two of the repeat contacts moved into the “engaged” category, and four completed the VI-SPDAT.

Success Stories

The vouchers keep on coming! The Los Angeles Homeless Services Authority’s (LAHSA) voucher program continues to bear positive results for our clients in Malibu.

In May, three more clients obtained HACoLA vouchers and three clients have been connected to HACoLA vouchers. The clients that have a voucher in hand were successfully linked to the housing locator, some have viewed potential apartments, and two have found a place are in the process of working with the housing authority to port their vouchers to the City of L.A.

P.W.S. a long-time client of the Malibu outreach team has spent the last year at SAMOSHEL has found a permanent home! He moved into his apartment in mid-May and is in the process of getting linked to services in his new community. Due to his background, he had several obstacles to overcome, but Jaime was able to find a place for him that fits his needs and provides a safe new home for him.

Community Interaction

The new Team continues to have daily interactions with local leaders, concerned community members, the Sheriff’s Department, Zuma Beach lifeguards, and various churches in the area. These interactions are helpful and provide guidance in locating and assisting particular individuals.

Medical/Psychiatric Outreach: Both Dr. King and Dr. Ryan from VFC continue to accompany the Team on a weekly basis while doing outreach as a way to bring both medical and psychiatric services directly to clients on the streets of Malibu. The Team continues to engage clients that are in need of medical and psychiatric assistance who otherwise may not have accepted any services at all.

Strategic Working Group: The team continues to participate in the regular working group meetings to provide input from the streets to assist in implementing the goals set forth by the strategic planning committee.

The Team also continues to attend the monthly Westside Coordinated Entry System (CES) case management/outreach meetings to coordinate and efficiently use County resources to target Malibu’s hardest to reach individuals. The Team continues close communication with the new E6 outreach team, coordinating services for individuals that are not Malibu locals.

Next Steps

The team is gearing up for this month’s Malibu Connect Day.

With more vouchers coming in, the team will be busy with connecting voucher holders to the housing navigator, and assist in the housing process.
