F. Challenges	Total	Female	Male	Vet
Returned to streets	3	1	2	0
Incarceration	0	0	0	0
Deceased	1	0	1	1

Narrative

Outcomes

In June 2019, the total number of street contacts made by the outreach team was 83, with 33 unduplicated contacts. Two individuals were contacted in shelter and temporary housing, and one was contacted in permanent housing. Of the 33 street contacts, 4 were new contacts, with three of them becoming repeat contacts. There are currently 57 individuals on the streets of Malibu that have been previously engaged. 41 are considered in various stages of engagement, and 16 are refusing services at this point. The outreach team continues to contact these individuals with the goal of getting them engaged in the housing process.

Success Stories

The vouchers keep on coming! The Los Angeles Homeless Services Authority's (LAHSA) voucher program continues to bear positive results for our clients in Malibu.

In June, three more clients obtained HACoLA vouchers, which brings the number of voucher holders up to 13. The clients that have a voucher in hand were successfully linked to the housing locator, some have viewed potential apartments and are getting close to being housed.

June has been a very successful month for the VFC medical and psychiatric team. Two individuals who previously were reluctant to get medical services have been scheduled for surgery and other medical procedures. Several newly outreached individuals agreed to receive psychiatric services, and have since shown improvements in their ability to engage with the outreach team.

Community Interaction

The new Team continues to have daily interactions with local leaders, concerned community members, the Sheriff's Department, Zuma Beach lifeguards, and various churches in the area. These interactions are helpful and provide guidance in locating and assisting particular individuals.

Medical/Psychiatric Outreach: Both Dr. King and Dr. Ryan from VFC continue to accompany the Team on a weekly basis while doing outreach as a way to bring both medical and psychiatric services directly to clients on the streets of Malibu. The Team continues to engage clients that are in need of medical and psychiatric assistance who otherwise may not have accepted any services at all.

Strategic Working Group: The team continues to participate in the regular working group meetings to provide input from the streets to assist in implementing the goals set forth by the strategic planning committee.

The Team also continues to attend the monthly Westside Coordinated Entry System (CES) case management/outreach meetings to coordinate and efficiently use County resources to target Malibu's hardest to reach individuals. The Team continues close communication with the new E6 outreach team, coordinating services for individuals that are not Malibu locals.

Next Steps

By the end of June almost all the people who were on the list of the fire relief fund vouchers obtained their housing vouchers. The outreach team is getting assistance from the newly created Intensive Case Management Services team. Their clinical case manager is working closely with the outreach team to facilitate warm hand-offs for our recent voucher holders who are in the process of getting housed. This will open up the outreach team's caseload so they can focus their efforts on engaging new clients and continue to work with already engaged clients.

JUNE 2019
