

ORDINANCE NO. 432

AN ORDINANCE OF THE CITY OF MALIBU DETERMINING THE PROJECT IS CATEGORICALLY EXEMPT FROM THE CALIFORNIA ENVIRONMENTAL QUALITY ACT AND AMENDING TITLE 9 (PUBLIC PEACE AND WELFARE) OF THE MALIBU MUNICIPAL CODE, CHAPTER 9.24 TO REGULATE PLASTIC STRAWS, STIRRERS, AND CUTLERY

The City Council of the City of Malibu does ordain as follows:

SECTION 1. Recitals.

A. The state Legislature recognized that littered plastic products have caused and continue to cause significant environmental harm and have burdened local governments with significant environmental cleanup costs. (California Public Resources Code §42355.) The state Legislature further declared its intent to ensure that environmental marketing claims, including claims of biodegradation of plastics, do not lead to an increase in environmental harm associated with plastic litter by providing consumers with a false belief that certain plastic products are less harmful to the environment. (*Id.*)

B. Although plastics are generally recyclable, plastics synthesized from petroleum and natural gas do not biodegrade. Even with the emergence of bioplastics, which are derived from renewable biomass sources, such as plants and microorganisms, there is no certified type of bioplastic that biodegrades in a marine environment.

C. To fulfill the City of Malibu's goals of reducing littered plastic products, the Malibu City Council adopted an ordinance banning polystyrene foam food packaging containers (Malibu Municipal Code Section 9.24) and plastic shopping bags (Malibu Municipal Code Section 9.28).

D. Despite these efforts, the City continues to confront littered plastic, namely plastic straws, stirrers, and cutlery. Plastic straws, stirrers, and cutlery are generally made from polystyrene or polypropylene. Although the City has already banned polystyrene, it intends to make clear, through the adoption of the instant ordinance, that commercial use of all plastic straws, stirrers, and cutlery is banned within the City's jurisdiction. A ban on plastic straws, stirrers, and cutlery will further serve the City's goal of reducing plastic litter. Non-plastic, compostable alternatives are available.
