This report provides an analysis of the financial and administrative obligations of Assessment District No. 98-1 (Big Rock Mesa) ("AD No. 98-1" or the "District") to be paid through the collection of assessments in fiscal year (FY) 2022-2023.

This report is organized into the following sections:

**Section I - Background**

Section I provides information regarding the formation of AD No. 98-1.

**Section II - Facilities and Maintenance Financed**

Section II provides information regarding the facilities and maintenance financed by AD No. 98-1.

**Section III - Cost Estimate**

Section III presents the projected budget for FY 2022-2023, the budget for FY 2021-2022, and projected year-end costs for maintenance of the landslide maintenance facilities.

**Section IV - Annual Assessments**

Section IV contains the proposed assessment of the total FY 2022-2023 maintenance costs upon the parcels within AD No. 98-1 in proportion to the estimated benefits to be received by such parcels from said maintenance, and a reduced copy of the assessment diagram.

## II. Background

---

The Board of Supervisors of the County of Los Angeles adopted a Resolution of Intention pursuant to the Municipal Improvement Act of 1913, Division 12 of the Streets and Highways Code commencing with Section 10000 (the "1913 Act"), and the alternative proceedings under the Special Assessment Investigation, Limitation and Majority Protest Act of 1931, Part 7.5 of Division 4 of the Streets and Highways Code (commencing with Section 2960), for the acquisition of necessary rights-of-way and certain landslide mitigation facilities and the design and construction of landslide mitigation improvements, together with appurtenances and appurtenant work (collectively the "Improvements") in a special assessment district designated County Improvement District No. 2629R2 (Big Rock Mesa Area) ("CI No. 2629R2"). Section 5 of said Resolution of Intention declared the Board's intention to levy an assessment to maintain, repair or improve the Improvements pursuant to Section 10100.8 of the 1913 Act. On November 7, 1989, following a duly noticed public hearing, the Board of Supervisors adopted a resolution confirming assessments and ordering improvements be made for CI No. 2629R2.

The Board of Supervisors also adopted Ordinance No. 89-0141 on November 7, 1989. This ordinance, which was subsequently amended by Ordinance No. 90-0054, adopted on April 17, 1990, established Integrated Financing District (IFD) No. 2 (the "IFD"), in conjunction with CI No. 2629R2, for the contingent assessment of undeveloped or underdeveloped properties in the Big Rock Mesa area.

On March 10, 1992, having determined that the improvements were substantially complete, the County notified the City that as of July 1, 1992, the County relinquished its jurisdiction over CI No. 2629R2 to the City of Malibu for the purpose of levying assessments to maintain, repair and improve the Improvements pursuant to Section 10100.8 of the 1913 Act. The County is still responsible for the levying of annual assessments to repay bonds sold on behalf of CI No. 2629R2.

As part of the City's maintenance of the existing system of improvements, the City's Geotechnical Consultant monitors ground movement, dewatering activities, groundwater levels, and water usage within AD No. 98-1. As a result of the intense winter storms of 1997- 98, the City's Geotechnical Consultant recommended reconstruction of the existing dewatering and monitoring system, including installation of additional dewatering wells and horizontal drains in the eastern mesa.

On June 29, 1998, the City Council of the City of Malibu held a public hearing regarding the Resolution of Intention and Engineer's Report for the reconstruction and annual maintenance of these improvements by AD No. 98-1. A majority of the assessment ballots tabulated at the public hearing were in favor of the assessment and a Resolution approving the Engineer's Report, confirming the assessments, and ordering the construction of the improvements was adopted.

### III. Facilities and Maintenance Financed

---

The City proposes to levy assessments in FY 2022-2023 to finance the inspection, maintenance and repair of the following facilities and activities:

- Dewatering wells (24 each);
- Hydraugers (37 each);
- Standpipes (29 each);
- Slope inclinometers (21 each);
- PK nail crack gauges (5 each);
- Water quality monitoring for ten (10) discharge points; and
- Energy costs.

## IV. Cost Estimate

---

The maximum annual assessment for FY 2022-2023 is \$487.07 per benefit assessment unit which reflects an increase of 5.00%. The maximum annual increase in the maximum assessment is limited to the percentage change in the Consumer Price Index, All Urban Consumers, Los Angeles-Long Beach-Anaheim, CA (the "CPI") or 5.00%. The change in the CPI is 8.50%. The benefit assessment units applicable to each parcel depend upon land use.

The FY 2022-2023 budget is \$343,917, which consists of costs for operation/maintenance, replacement/special projects, energy, and administration. This is based on projected needs for an average rainfall year. In addition to estimated costs, the assessment levy includes reserves to cover possible expenses associated with an above-average rainfall year and delinquent assessments. Any funds not used in the current year are held in the assessment district account and applied to the next fiscal year. The desired wet-year contingency is equal to 100% of costs for operation/maintenance and replacement/special projects for an above-average rainfall year, or \$282,958. However, the actual wet-year contingency for FY 2022-2023 is limited to \$19,922, or 7.04% of the full wet-year contingency as the maximum annual assessments are insufficient to fund the full amount.

The budgeted reserves, including reserves for estimated delinquent assessments, are approximately \$45,090 or 13.11% of the estimated FY 2022-2023 budget (7.04% of costs for operation/maintenance and replacement/special projects for an above-average rainfall year and 7.32% of the total assessment for a delinquency contingency based upon the FY 2021-2022 delinquency rate). The total amount necessary to cover the budgeted costs and reserves is \$389,007; subtracting the estimated FY 2021-2022 year-end fund balance of \$45,090 results in an assessment levy of \$343,917.

A comparison of FY 2022-2023 and FY 2021-2022 assessment amounts for selected land uses is shown in Table IV-1 below.

## V. Annual Assessment and Diagram

---

### A. Annual Assessments

Pursuant to the provisions of law, the costs and expenses of the facilities inspection, maintenance, and repair to be performed in AD No. 98-1 have been assessed to the parcels of land benefited thereby in direct proportion and relation to the estimated benefits to be received by each of said parcels. For particulars as to the identification of said parcels, reference is made to the Assessment Roll, a copy of which is attached hereto as Exhibit B. For particulars as to the determination of benefit, reference is made to the Method of Assessment, a copy of which is attached hereto as Exhibit C.

### METHOD OF ASSESSMENT APPORTIONMENT

## **METHOD OF SPREAD OF ASSESSMENT**

Assessments levied pursuant to the Municipal Improvement Act of 1913 (hereinafter referred to the "Act") must be based on the benefit which each property receives from the system of improvements. Furthermore, as a result of Proposition 218, more stringent standards have been imposed for determining benefit. For example, Proposition 218 requires that special and general benefits be separated, with the amount of any assessment limited to the special benefits so conferred. Neither the Act nor Proposition 218 specify the method or formula for apportioning benefit or distinguishing special from general benefits.

Identification of the benefit the reconstruction and maintenance of the system of improvements will render to the properties in the Assessment District is the first step in developing the assessment spread methodology. The next step is to determine if the properties in the Assessment District receive a direct and special benefit from the system of improvements which is distinct from benefit received by the general public. For this Assessment District these determinations were made by David Taussig and Associates, Inc., the Assessment Engineer; in consultation with the City's Geotechnical Consultant; and the City of Malibu Public Works Department.

### **Project Need**

The primary purpose of the dewatering system is the reduction of groundwater, from both rainfall and residential effluent, percolating down to the slide plane. This reduction in groundwater stabilizes the landslide outlined on the assessment diagram (Exhibit DJ). Stabilization of the landslide plane provides two distinct types of benefit to property within the Assessment District: protection of the property (i.e., the parcels) located on the slide plane and protection of the following roads within the landslide area:

### **Assessment District Boundary**

The District boundary as shown in Exhibit D was established to encompass those properties which are specifically benefited by the system of improvements. This includes all properties which are located in whole or in part within the ancient landslide area.

### **Specific Benefit**

The system of improvements to be installed and maintained by the District specifically benefit the properties within the District in one or two distinct ways: protection of the property and protection of the roads. First, properties located within the ancient slide boundary are reducing the risk and degree of damage or distress suffered from slope failure and/or movement (the "Protection" benefit). Second, access is maintained for those properties which are reached using roads affected by the slide (the "Access" benefit). The benefits associated with Protection and Access are deemed to be equal, since use of the property cannot be fully enjoyed without either one.

Since the roads within the District, except for Pacific Coast Highway (PCH), do not convey through traffic, there is no general benefit to the public for such road access. With respect to PCH, which does convey through traffic, properties located on PCH west and east of the slide area would have access via other roadways, whereas no access would be available to properties located on PCH within the landslide area. Clearly, stabilization of the slide confers a special benefit enjoyed only by the properties which may be impacted by slope failure or

movements. The April 1998 analysis prepared by City's Geotechnical Consultant, confirms that the impacted properties are all located either within or on the slide boundary.

**Method of Assessment**

After the boundary of the District has been established and the determination of specific benefits has been made, the assessment to individual properties must be determined. As previously discussed, there are two types of direct and special benefit conferred upon property within the District, Protection and Access.

Protection benefits are allocated based on land use designation. The reason for this allocation is twofold. First, the proposed system of improvements has been sized to provide adequate dewatering capacity at full buildout. Second, the Protection benefit conferred upon each parcel of property is a function of each parcel's land use designation and number of dwelling units. Each dwelling unit is deemed to be equally protected, therefore, no differentiation is made between single family or condominium/apartment units. For purposes of assigning Protection Benefits to each parcel, one dwelling unit equals one Benefit Assessment Unit (BAU).

Access benefits are allocated to each parcel of land based on the estimated number of trips for that parcel's land use designation. Trip factor source data are from the Institute of Transportation Engineers Trip Generation study (5th Edition). The trip generation factors are shown on the next page.

|--|----------------------------------|---------------------------------------|
| TRIP GENERATION FACTORS<br>AND<br>BENEFIT ASSESSMENT UNITS |                                  |                                       |
| LAND USE   | AVERAGE<br>WEEKDAY<br>TRIPS/UNIT | BENEFIT<br>ASSESSMENT<br>UNITS (BAUs) |
| SINGLE-FAMILY  | 9.55                             | 1.00                                  |
| CONDOMINIUM/APARTMENT                                      | 6.23                             | 0.65                                  |

Three examples of the assignment of benefit assessment units are provided below for the following: (1) a single-family residential parcel, (2) a parcel with a single condominium unit, and (3) a parcel with four apartment units.

**Exemption from Annual Assessment**

Any property within the District that is restricted in use as open space or against which a deed restriction preventing development is recorded may be deemed exempt from the levy of annual maintenance assessments by the City Council of the City of Malibu.
