Mayor Stewart Commends Collaboration on New Wildfire Clean Up Site at Will Rogers State Beach Parking Lot

“The City of Malibu is grateful to California State Parks and the U.S. Environmental Protection Agency for working together to accelerate wildfire recovery efforts. The addition of a second temporary EPA processing site at Will Rogers State Beach Parking Lot is an important step in ensuring hazardous materials are removed safely and efficiently, helping impacted residents move forward in rebuilding their homes.

As recovery efforts progress, we remain committed to advocating for safeguards that protect our coastal environment and the health of our residents. We will continue working with our federal, state, and local partners to ensure this process is carried out with transparency, safety, and care for our community.

We appreciate our residents’ patience and engagement, and we’ll keep you informed as recovery efforts move forward.”
